Dewey is reported to have again proved himself a hero at New York. He declined to kiss a pretty girl who temptingly offered her lip.

Venezuela is so busy with her various revolutions that she has had no time, as yet, to figure out just what she has gained or lost through the decision of the boundary commissioners.

Our English cousins are now going through the perplexities and anxieties attendant upon the conduct of military operations several thousand miles from the seat of government.

Hon. J. F. Wilson, our Delegate to Congress, has written a letter to the Phoenix Daily Enterprise, setting forth his relation to the reclamation of arid lands pointing out the duty of the general government to reclaim them for the benefit of the people and itself. The article shows our delegate has given the subject much thought, and his stand is the only correct solution of the arid land question.

The fact that ex-President Harrison is to receive \$250,000 as his fee from the Republic of Venezuela in the recent arbitration proceedings would appear to indicate that there is something in the president business that holds over.

The story is told that a foreign diplomat on being asked what were his impressions of America gave as one, that the women evidently possess even more lives than tradition allows the cat, for they are always "dying" of something—of heat, cold, laughter, embarrassment, surprise etc.

The Phoenix Republican thinks the Tombstone earthquake a good omen of the coming boom. It says:—

"The Prosperator has for some time been predicting that the old town would experience a shaking up, and again enter upon a season of prosperity. The prediction has been fulfilled the famous mining camp being visited by an earthquake two or three days ago. This may be taken as a good indication for the reason that in Tombstone's halcyon days earthquakes were popular and there hasn't been entertainment of the kind down there since the bottom of the early day boom fell out."

## LA GRIPPE

Is now sweeping a rich harvest. It is dragging thousands within its relentless grasp. Medical statistics compiled by the best physicians of the world show that over 60 per cent of the cases of acquired CONSUMPTION are due to LA GRIPPE. The consumption develops owing to the weakened state of the lungs produced by the disease. There are also other points of weakness. Refer to the numbers on the chart. Study each carefully. Familiarize yourself with them. If you have an attack of La Grippe begin the use of HUYAN as soon as the acute symptoms have subsided. HUYAN will bring about the restoration to perfect health.

THE PARTS AFFECTED ARE:

1. THE MUCOUS MEMBRANE LINING OF THE NASAL PASSAGES OF THE NOSE. It becomes inflamed and thickened, and a chronic catarrh is the result. HUYAN will reduce the inflammation, produce a perfect circulation of blood and leave the mucous membrane in a perfectly healthy condition.
2. THE BRONCHIAL MUCOSITS MEMBRANE. It becomes inflamed and thickened, giving rise to asthmatic and whooping cough. HUYAN will prevent the system of inflammation. The drum will not be affected and hearing will be unimpaired.
3. CHRONIC TONSILLITIS OR CHRONIC SORE THROAT. From the same cause as the two preceding. HUYAN will prevent its coming on.
4. WEAKNESS IN THE HEART. HUYAN will strengthen the heart, balance the circulation of blood and cause the heart to become strong and regular.
5. A WEAKENED CONDITION OF THE LOWER PORTION OF THE LUNGS. LEADING THEM PROXIMATE TO ATROPHY. HUYAN will prevent this, and cause the lungs to become strong and regular.
6. A WEAKENED CONDITION OF THE LUNGS. LEADING THEM PROXIMATE TO ATROPHY. HUYAN will prevent this, and cause the lungs to become strong and regular.
7. LUNGO. OR WEAK BACK. HUYAN will strengthen it almost immediately.

HUYAN will cure all of the above symptoms and leave your whole system in a perfect condition of health. Go to your druggist at once and procure a package of HUYAN for 50 cents, or 10 packages for \$2.50. If your druggist does not keep it, direct to the HUYAN REMEDY COMPANY, San Francisco, or Los Angeles, Cal. Remember that you can consult the HUYAN DOCTORS FREE. Call and see the doctors. You may call and see them or write, as you desire. Address:

The weather is clear and comparatively warm. A fringe of clouds upon the horizon today and a crescent in the sky tonight are forebodings of a change, so the oldest inhabitant says.

The dental profession was well represented at the ball game today. Dr. W K Chambers, who was a substitute in the general office nine, held down the second bag while Dr Farrington was official scorer. Dr Herman Schmieding couldn't attend as he had a date with his new son and heir at home.

The game of ball between the clerk in the general office and store employees of the Copper Queen Company, was played this afternoon at Don Lewis. The contest was interesting from the zest and enthusiasm displayed by the contending nines although errors were numerous with both. A train load of spectators watched the game. The score was 21 to 13 in favor of the general office boys. Johnnie Twoomey was official umpire and his decisions were received without complaint. Base-ball seems to have taken a firm hold upon our local athletes and a series of games may be looked for this fall.

## AN EDITOR RETIRES

A Hasavampier Quill Driver and His Farewell

Mr Tom Schultz has succeeded Mr. A F Banta as editor of the Phoenix Pick and Drill. The Phoenix Herald commenting on the retirement of the Hasavampier editor says Mr. Banta retires with blank cartridges, having fired off all he entered the field with, and with colors flying to the mountain breeze he announces that he is done. Under the direction of Mr. Banta the Pick and Drill has always been unique in the newspaper field in Arizona. The opinions of Mr. Banta were always expressed in vigorous language, and he was ever the champion of the frontiersman, "one of whom he is which." Editor Banta concludes the announcement of his retirement in this characteristic manner:

"While there are many people in this city for whom we have great respect, there are a darned sight more of 'em that we don't care a cuss for; however, to even up matters, we presume they don't care another cuss for us, and there you have it. So be it. No love lost either way.

Do sin.—In the language of the classical Hasavampier, we saw Sic semper freeze-out; nuffed; we quit."

TO SOME AMERICANS

Dedicated to Astor and Others of his ilk

Ah! man from the forest unbroke,  
From the plains and slumbering hills,  
To those that bow at Majesty's thrills,  
I'll quote you a song yet unspoken,  
To bow to the yoke that's been broken,  
By our struggling fore father's aim.

Go back to her royal highness,  
Like a surf and a page at her door—  
With your millions, ask for her kindness,  
That your father had willed you before.

MILES NOYES

Fairbank, Oct. 9 1899.

The Nogales Oasis is informed by good authority that Special Agent W. E. Pulliam of the United States treasury department has recommended removal of the Nogales custom house from its location to some point on Morley avenue more convenient to the business public, having relations therewith than is the out of the way place where it is now located.

A contingent of surveyors arrived in Tucson and commenced the preliminary work on the proposed railroad from Yuma to Afton bay on the Gulf of California, says the Yuma Sentinel. Among the party were Chief Engineer H. J. Stockey and assistants R. J. Venning, T. D. Shearer, W R King, E Rommel, F W Marsh, Manuel Martinez and C Barney.

Quite a delegation of U S jurors from Tombstone and surrounding country leave tonight for Tucson to do service for Uncle Sam. The jurors from Tombstone are the following: U S Grand jurors—Geo Farrington, F M Lake, K McCormick, Miles Noyes, U S Trial jurors—Leonard Carr, Dave Shumaker, Sam Johnson, Thad Carr.

The Cocino Sun has the following story:—

An amusing story comes from Bellemont which is better appreciated when it is remembered that there is only one boarding-house in the town. A man employed in the pickling plant, who boarded at Delmonico's when in New York, took exception to the substantial fare furnished in Bellemont, but the landlady kindly overlooked these occasional lapses. But there was one thing that the mistress did not have the patience to bear. The boarder came to breakfast the other morning, partook of a hearty meal, leaned back in his chair and said: "Boys, I've seen worse boarding-houses than this"—then waited for the landlady's face to wreath in smiles—"but I'll be darned if I remember where!" It took all the superintendent's influence to get the boarder reinstated.

## BOUND OVER

Geo Morgan Held to Appear Before the Grand Jury

The case of the Territory vs. Geo Morgan and J W Mitchell on charge of murder of John Duncan, was being heard by Justice Shuster today. The cases are being tried separately, Geo Morgan having his examination first. The witnesses examined were Jas Duncan stepson of the murdered man, Jas B Cook, Geo Bravin, Carl Abel, Jas W Mitchell, Ed Patterson, and Geo Morgan. A number of witnesses for the prosecution who were subpoenaed did not arrive but the case was proceeded with, Col J W Martin assisting Dist Attorney Lund in the prosecution.

It was sought to prove that a deep laid conspiracy by several on the life of deceased had been planned, and also to connect Geo Morgan as one of the principals in the tragedy. The conspiracy theory created a little sensation and the case was ably and eloquently handled by Attorneys Martin and Lund for the prosecution. After argument the case was submitted, the court holding the defendant under \$1500 bond to await the action of the grand jury. Morgan has made arrangements for bond from Wilcox and will doubtless secure same. The case of Mitchell will be heard tomorrow.

TOMBSTONE, ARIZONA

From Monday's Daily:

Sheriff Scott White returned home Saturday from an official trip to Bisbee and Mexico.

County Surveyor J A Rockfellow returned from Bisbee yesterday where he was engaged on some survey work.

A number of Arizona cowboys will be in evidence at the contest to be held in St Louis this mo th.

The territorial Sunday school association will meet in Tucson on the 21st and 22nd of the present month.

Cal J P Martin of the law firm of Barnes and Martin arrived this morning from Tucson on professional business.

A B Barnett came over from Bisbee yesterday and was warmly greeted by many old Tombstone friends. "Barney" still has property interests here and is getting ready for the coming boom.

Messrs Reuck and Rich, who published "Arizona's Resources," will shortly begin the publication of a monthly illustrated paper at Los Angeles. Considerable attention will be paid to Arizona matters.

Chas McHenry who has been hereabouts for several weeks looking up copper properties of merit for his company, left last evening for Los Angeles. He is expected to return here in about 30 days.

An Arkansas exchange praises its commercial work in the following unique way: "The stationery printed at this office is giving the best of satisfaction. Last week we printed a thousand statements for a man who has collected a small fortune. Two months ago a man bought some paper of us to use when writing to his sweetheart. He is now married. Another young man stole some of our paper to make cigarettes and he is dead. By using our stationery you can collect old accounts, tell fortunes, make rain, change the color of the hair, be successful in business, triumph over enemies and get elected to office."

The "Bucket of Blood" saloon, at Holbrook was held up one evening last week. It netted the robbers \$18.

## A BIG TRAIN

Six Sections Carrying 101 Cars Go East

The El Paso Herald says the local yards of the Southern Pacific were a scene of unusual activity from eleven o'clock last night until nine o'clock this morning. During those hours the yard men were busy handling the biggest train shipment of the season. This shipment was on through freight No. 243, and section after section came pulling in out of the darkness of the west with flashing lights and vanished in clouds of smoke, until six sections in all had gone through, hauling a total of 101 cars.

The cars were loaded with California fall products, including dried and canned grapes, peaches, apples, pears, and the like, and wines and wool. It is all through freight billed to New Orleans and New York. It marks the revival of the east bound freight business at this time of the year.

In mining deeds, where the consideration is stock in a mining company, it has been held revenue stamps shall be affixed to the document in proportion to the par face value of the stock transferred, and not in proportion to its real or market value. The law provides that \$1 worth of stamps shall be affixed for each \$1,000 value in the consideration.

From Tuesday's Daily:

A. R. English left for Bisbee today on professional business.

Sheriff Scott White went to Bisbee today on a flying official trip.

Col. O. B. Hardy returned to Tombstone today after a three month's visit east. The Col. looks as if the trip agreed with him. He was busy today shaking hands with his many Tombstone friends.

John Wesselschke has commenced suit to cancel contract against Wm. Siewert and John T. Hansen. The plaintiff contracted last May to sell to the defendants a group of mines in Cochise county for \$25,000, payments to be made in installments. Failure to pay installments as due is given as cause for the suit.—Star.

A pleasant surprise party was given last night in honor of Robt McCormick at the home of his parents. Quite a number of young friends were present and an enjoyable time had.

The Dragoon Mining company, operating the Peabody copper property at Dragoon Summit, Arizona, has become one of the largest shippers of high grade ore to the El Paso Smelting Works.—El Paso Times.

At least thirty people have made inquiries at the local land office during the past three weeks about land near Benson and St David. The finding of artesian water in unlimited quantities in those districts has given them a decided boom and it is expected that many homestead entries on land in those districts will soon be made. Several have already been made.—Tucson Citizen.

The Petaluma, Cal., Argus publishes the following editorial:

"The two old fossils who run this paper have been in the business for half a century. The health of one has failed and the other is losing his eyesight. A couple of vigorous young men could buy the concern for one-third of its actual value and make some money out of it. But little cash required"

Tuesday morning the train from Benson found upon the track a mile below Rollin the remains of an unknown man who had been run over by the train going north the night before. Engineer Norton stopped his train as quickly as possible but was not able to come to a standstill until the train had again passed over the remains. When he first saw it Norton noted that the trunk was headless. The remains, which were badly mutilated, were brought into Nogales and turned over to the authorities. Justice James B. Mix impelled a coroner's jury, which found a verdict in accordance with the facts here related.

A belated spring peep sings to Uncle Sam in this wise: "Spain had a little lamb, the slickest lamb around. She sold the lamb to Uncle Sam for twenty millions down. Then Sammy took it by the tail, to lead it home, you know; the mutton rare, turned out a bear, and Sam can't let it go."
